

Enoch Flooring SPC Catalog

Updated: 2026-06-25

Use this catalog to review SPC product direction before quotation. Match final product documents to the selected product family, site condition and written quote.

Included sections:

- Company and factory route overview
- SPC flooring product categories
- Product specifications and sample direction
- Quote preparation notes
- Product sheet, technical sheet, warranty and care terms request path
- Applications and contact details

SPC family coverage:

NBL93-S-050, RE801, RE802, RE803, RE805, RE808, RE809, RE810, RE811, YN801, YN802, YN803, YN807, YN808, YN809, YN810, YN811, YN812, YN816, YN819

Warranty and care boundary:

Confirm warranty and care terms together with the matched product sheet, technical sheet, quote, site condition, handover record and intended use. This PDF does not state a fixed warranty duration, certification, price, medical-safety claim, child/pet-safe claim, ranking claim or guaranteed lifespan.

SPC installation boundary:

For Enoch SPC, use straight plank or standard staggered installation only. Do not use herringbone, fishbone, chevron or other angled click-lock layouts as Enoch SPC proof.

Next step:

Send product direction, approximate area, site photos or floor plan, timeline and document needs. Enoch will review the product route before quotation.
